MicroClips

Use Adapters.com' MicroClips to access individual leads while testing fine pitch high-density IC packages with an oscilloscope or logic analyzer. The thin body design of the MicroClip allows side by side pin access on fine pitch devices.

The MicroClips are constructed of precision molded ABS, stainless steel, and nickel plated steel wire. Easy to use color coding allows for quick and easy testing.

UNIQUE FEATURES

- Side-by-side testing
- Molded ABS construction
- Nickel-plated steel wire
- Stainless steel guides
- 500 WVDC rating
- 100 MHz frequency (max.)

ACCESSORIES (MICROCLIPS)

Test Leads, Probes and Replacement Tips

- 30mm, Female to Female colored
- 300mm, Female to Female black
- 300mm, Female to Alligator clip
